# Everybody Laughs at a Monkey

Monkeys are imitators. They haven't sense enough to know just how laughable they are. That's why they undertake to imitate the most intelligent moves of their superiors. That's what makes monkeys funny. That's just exactly what makes all imitators funny. No matter how superior, no matter how intelligent, no matter how radically advanced the actions of some men are recognized as being, there's always a monkey in the neighborhood ready to imitate those actions, and foolish enough to believe, the public will not recognize the difference.

# OUIS IS AU CAUUSIVE Upstails Civiling Store

Imitate as he might, design his actions like ours as he may, plan to mislead the public as he will, no street level clothier conducting his establishment on the usual high-rent and high-cost way of doing business with extravagant fixtures, brilliant street front, expensive show windows, ornate show cases and hangings,—no such street level clothier should believe for a moment that he can mislead the public into the belief that since FOREMAN 2 CLARK have come to town he has reformed and made of himself an upstairs clothier even though he may lean

a ladder against his wall and invite the public to climb upstairs direct and blindfold themselves while passing his high expense street level establishment.

We saw it done in Los Angeles. We saw it done in San Diego, and we now see repeated in Oakland this attempt to bewilder the public by monkeying our methods. They failed in Los Angeles. They failed in San Diego, and, with the increased experience, with the recognized intelligence, with the well-known far-sightedness of Oakland men, such imitating methods cannot bring good results here.

# In This Exclusive Upstairs Clothing Store We Sell \$25 Suits and Overcoats at \$15

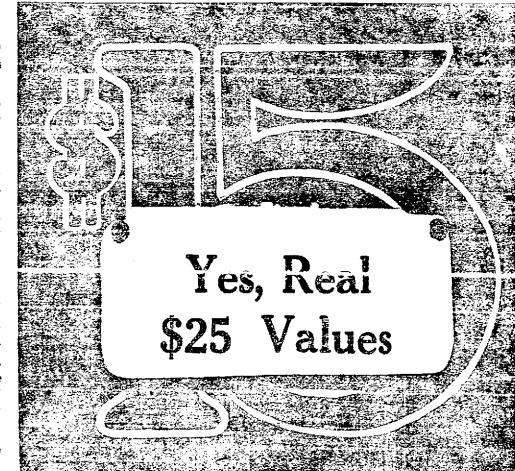

If we had a street level annex, if we had high-cost fixtures and high-cost windows to pay for anywhere, if this second floor establishment was only a by-play, a side-show or an after-consideration, we could not possibly offer you what we DO offer you at this money-saving price.

The mere connection of such an establishment upstairs with a Main Store downstairs absolutely wipes out the entire possibility of Foreman & Clark methods, Foreman & Clark principles, Foreman & Clark values and Foreman & Clark savings.

# The Customer Pays the High Street Rent

And you may be absolutely sure that the second and third and fourth floor of any store with a downstairs establishment,—all the customers of all the floors must help pay the street level expenses, high as they are.

At FOREMAN 2 CLARK'S you have upstairs expenses only. These mean nominal rent. The low cost of plain fixtures, the absence of expensive superintendence, the assurance of our own personal supervision of every detail, the assurance of perfect fitting, permanent and perfect satisfaction, the utmost possible in clothing service and values, these give us the absolute right to say—

This cake, made by the Cottolene recipe, using only Cottolene for shortening won the first prize three senarate times at the Texas State Fair. Cottolene recipes are all winners, at home or elsewhere.

# Cottolene

Remember, however, that you do not need to use as much Cottolene as you would of butter or lard. Always use one-third less when cooking with Cottolene, for Cottolene goes much farther.

You save money, any way you figure, if you cook with Cottolene, and your food is more wholesome and more digestible. If you will give Cottolene one fair trial, you will continue to use it for everything except on the table.

This is the recipe for the prize-winning cake, by Mrs. W. J. Stone, Dallas, Texas:

Three-fourths cup of Cottolene, 2 cups sugar, 3 cups flour, 1 cup milk, 2 teaspoons baking powder, 6 whites of eggs beaten to stiff froth, 2 teaspoons lemon extract. Cream 3-4 cup of Cottolene with sugar, add milk and flour alternately until well mixed, then add whites of eggs and extract. Grease tins and flour them; light the gas just as you place cakes in stove. Put all three layers in and cook at once. Let the cake cool an hour or so before being.

FILLING-Two cups sugar and just enough water to moisten, cook until it threads from the spoon. Beat whites of 2 eggs to stiff froth, pour the boiling syrup over the whites and bear constantly, then add I teaspoonful of lemon extract and 1-2 package shredded cocoanut, and ice your cake. If icing begins to get too stiff to ice add about 2 tablespoons of boiling water and beat well.

Give yourself the satisfaction of knowing what Cottolene can do. Order a pail of it from your grocer; also send to us for the interesting FREE Cook Book, HOME HELPS, written by five leading authorities. Write for it today

Commissioner Turner's resolution to close up a number of cafes which have been conducted in a disorderly and disreputable manner was destroyed by laying it over for two months. The vote to postpone is altogether out of harmony with the spirit of the new liquer ordinance. Mr. Turner proposed to begin the work of reducing to water of rations to climinating names places which have caused much scandal and provoked much complaint on the first of January, but his colleagues voted to put the matter over till the first of March.

This procrastinating poncy violates the spirit of the new ordirence and cyinces a reluctance to enforce its provisions. The eafes which lir. Telruly and ted to close up have been under consudcration for months. They are predicted the kind of places - hear should be closed to the stills it is of places that have given the most offense. Specifically every one of the cafes named in Commissioner Turner's resolution has given abundant cause

They have been under investigation for mooths, and during the time they have her under fre have put on an all of respectability. #### A Prosperous Year for California Farmers.

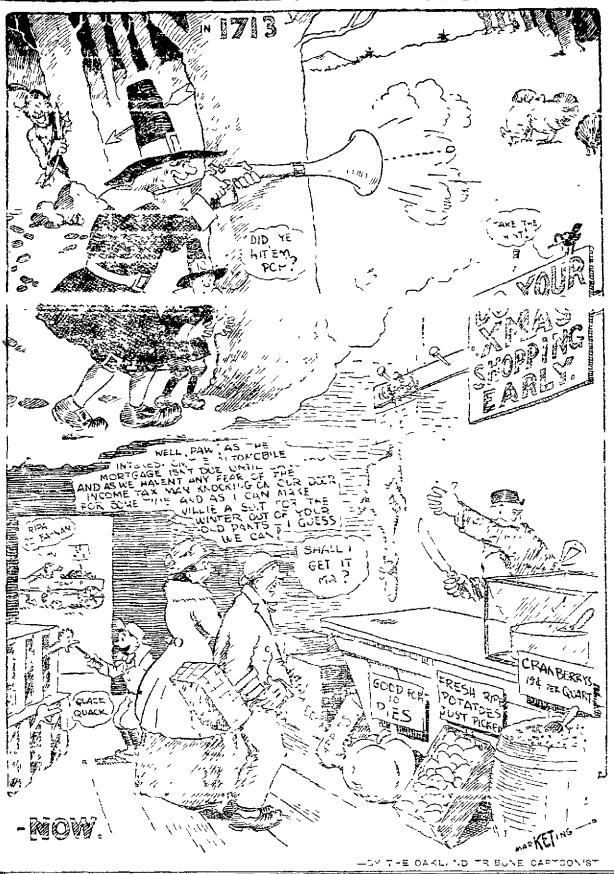

The year 1913 will go down in the history of California as prescriting the anomaty of a drouth season being profitable for the farmers. Netwithstanding the abnormally light rainfall and the long period of drouth, there was a fair crop of everything except | hay and grain. On the other hand, everything produced on the farm sold for good prices. The fresh fruit shipments were the largest in the history of the State. Wine and table grapes had brought top notch prices. Hops are selling at forty cents a kill pound and the yie'd was average. A banner raisin crop was []] produced and the sale is brisk and the prices good throwers." have done "ell. The citrus fruit crop is a little short because of the freeze, but it is estimated that there will be 40.000 carloads for snipment. These 40 000 caroads will bring more money into the State than the grap of 46 000 carloads, produced in 1911, sold for. Onions, notatoes, hears, etc., are selling at high figures, the shortage in yield being made up by the advance in price. In short, the farmers have had a profitable year despite the drouth. Every section of the State is prosperous. The fear of drouth has been dissipated, and the fill turns have brought renewed confidence. Surely the California farmer should be a happy man. He has proved fair crops can be produced in extraordinarily dry years. and the staples of this State are in active demand at lucrative prices. Ther's years ago a dry season such as we have just passed tacagh toud have caused universal distress in Cahforma. We have come through this time with plenty of good stuff and a fine balance or the right side of the ledger. We have learned how to deal with the eccentricities of our climate, and the Jesson has In red a raisoble one for farmers. It has given greater value to farm lands as a more stability to business. Once in a great while a fresh breeze clears the atmosphere of the mage on utmosphere freighted, just now, with vapor of the dirty drama and tin-pan musical

Such a breeze is "The Rainbow," the E. Thomas comedy brought to the Macdonough theater last night by Henry Miller. If you have struggled for a breath

The comedy is splendidly acted by Miller, Ruth Chatterton, Louise Classer male and others who had here for: wonderfully staged, with an eye for naturalness and an avoidance of stage realism-perfectly pictured, in fact. GRIEF DEPICTED.

Miller's methods in training his companies have resulted in an achievement. He imparts a knowledge of correct acting by carefully avoiding the drilling of a pedagogue. Miller has never been known to stifle individuality—and therein lies the excellence of every company that has ral-

lied to his side Simplicity is the very archstone of "The With scarcely a complication, it nevertheless holds your interest and clinches your attention. Its story is of Neil Sumner, bon vivant, gambler, whose indiscretions-de-luxe have separated him from his wife. There comes into his life, after years of separation, his daughter, Cynthia.

An instant after the meeting of the two their hearts have welded, clinging to-gether like lest twin souls that have found each other after centuries. THE CLOUDS GATHERED.

The two have wandered blasfully, hand in hand, for some days when the clouds gather. Cynthia's mother fears for the safety of the chini among Nell's friends-bounders, most of them, men and women alike. . She plants this fear in Sumner's heart and his girl is snatched from him th scarcely an hour's notice. Miller has er painted a more faithful picture of a broken heart than on the parting.

To Miss Hale as Neil's sister falls many of the play's best lines-wit runs riot throughout her share of the dialogue. She makes the best of a mighty good character, giving it all of her well known skill. Ruth Chatterton's promise of future splender is a veritable rainbow. #### FREMONT ELDERS PUT IT ON "FRESHIES"

In a well played game of rugby on the Fremont field, Thursday, the Fremont seniors defeated the freshmen, 5 to 0. Despite the fact that the field was in a bad condition, both teams executed in a bad condition, both teams executed some nice dribbling and passing rushes. The playing of Captain McClelland and McCoy at first and second five, respectively featured. The forwards also did some clever work. Great enthusiasm is being aroused over the inter-class series and each class is straining every effort to put out the winning team.
